

£25 million funding programme for maintained schools

Interest free funding is available for maintained schools over the next 2 years

In 2018 Salix and the Department for Education launched a pilot scheme for maintained schools looking to install energy efficiency measures over the summer (2018). This pilot was the first step towards delivering £25 million of funding over a 2 year period, to help schools lower energy bills, save carbon and create a more comfortable teaching environment.

Following the success of the pilot scheme over summer, Salix are now funding further projects with applications being accepted until March 2019. Maintained schools are welcome to apply online for Salix interest-free funding. For schools who would like additional help in identifying any projects, Salix are able to provide an energy efficiency survey via our award-winning Switching to Low Energy (SLE) scheme. Both programmes are designed to help schools reduce their energy spend to the lowest possible level.

During the past year, Salix has worked with over 500 schools and colleges to help them save on their energy bills and reduce their carbon footprint. Salix is expecting to work with a projected 1,000 schools across the country*.

To apply or for more information, please contact our dedicated schools team:

Most common energy efficient technologies in schools

- ✓ Boiler Upgrades
- ✓ Building Energy Management Systems
- ✓ Computer and IT Equipment
- ✓ Heating Improvements
- ✓ Insulation Upgrades
- ✓ Kitchen Equipment
- ✓ LED Lighting
- ✓ Solar PV

Support for over 100 technologies

Save money on energy bills

Improved learning and working environment

Reduced CO₂ emissions

Five simple steps to apply

- 1 Visit salixfinance.co.uk and go to the 'maintained schools' section
- 2 Create an account
- 3 Complete the application form
- 4 Submit your application online
- 5 Salix will undertake a technical assessment and award funding

To apply or for more info, please contact schoolsapplication@salixfinance.co.uk or 0203 102 6903

*This figure is based on an average maintained school project size of £25,000.
